ÖZYEĞİN UNIVERSITY	Course Syllabus **MATH 217 PROBABILITY AND STATISTICS** SPRING 2025-26

INSTRUCTOR	
Name	Asst. Prof. Çağatay Edemen
E-mail	cagatay.edemen@ozyegin.edu.tr
Phone Number	9185
Office Number	EF 106
Office Hours	by appointment
Research/Teaching Assistants	Kamela Dokaj, Tayyba Hafeez

COURSE ORGANIZATION	
Interaction Methods	peer instruction
Technology Used by the Instructor	Lecture notes will be shared as PDF. The course will be taught interactively using an iPad.
Technology Requirements for Students	-

COURSE MATERIALS	
Required Books	No required book
Recommended Books	Probability & Statistics for Engineers & Statistics, 9th Edt. Walpole, Myers, Ye., Pearson or A first course in Probability, Sheldon Ross (any editions)
Other Materials	MIT open-course videos conducted by John Tsitsiklis
Accessing Course Materials	OZU LMS

WEEKLY SUBJECTS (TENTATIVE)		
Week	**Date**	**Subject**
1	9-13.02.2026	Intro
2	16-20.02.2026	Experiments, Axioms, Sequential Experiment
3	23-27.02.2026	Discrete R. V. and their probability distributions
4	02-06.03.2026	Discrete R. V. and their probability distributions
5	09-13.03.2026	Discrete R. V. and their probability distributions
6	16-20.03.2026	Continuous R. V. and their probability distributions
7	23-27.03.2026	Continuous R. V. and their probability distributions
8	30.03-03.04.2026	Continuous R. V. and their probability distributions
9	06-10.04.2026	Multiple R. V.
10	13-17.04.2026 ***(Withdrawal Week)***	Multiple R. V.
11	20-24.04.2026	Multiple R. V.
12	27.04-01.05.2026	Multiple R. V.
13	04-08.05.2026	Introduction to Descriptive Statistics
14	11-15.05.2026	Concept of the sampling distribution, Central limit theorem, Biased/Unbiased point estimators
15	18-22.05.2026	Concept of the sampling distribution, Central limit theorem, Biased/Unbiased point estimators

ASSESSMENT METHODS, WEIGHTS AND RULES			
Type	**Weight**	**Implementation Rule**	**Makeup Rule**
Final Exam	40%.	The final exam is administered in person, on campus. The final will be comprehensive, covering all the subjects in the	BÜT exam will serve as the make-up for the final exam.

		course (topics start from the beginning).	
Midterm Exam 1	30%	Two midterms are administered in person and on campus. The topics you are responsible for will be shared with you one week before the exam.	Only valid excuses with an official report are accepted to qualify for midterm make-up. Students are allowed to take only one make-up examination for both midterm examinations.
Midterm Exam 2	30%		
Attendance/ Interaction (Participation)	7%	**7/(total attendance)** points for each successful check	No make-up for missing class meetings.
Total	**107%**		

METHODS FOR TRACKING ATTENDANCE & IMPACT OF ATTENDANCE ON SUCCESS			
Method	**Application Details**	**Required Tools and Make-up Method**	**Impact of Attendance of Course Grade**
QR Code (MyOzU)	During class, a QR code will be displayed on the screen. Scanning this code with the MyOzU app on your mobile device will be accepted as proof of attendance. *You can access the guideline here*	You must have a smartphone with the MyOzU app installed.	Class attendance is at the student's discretion; however, attendance will be taken once each week in our course, for a total of approx.25-30 times. For each successful check (i.e., when present), **7/(total attendance) points** will be added to the final average.

ASSESSMENT(S) BEFORE THE WITHDRAWAL DEADLINE		
Type of Assessment(s)	**Weight(s)**	**Date by When the Score of the Assessment is to be Announced**
Midterm 1	30%	**No later than 15.04.2026**

DETERMINING LETTER GRADE
The letter grades will be determined according to the curve method (relative grading method) and the following rules. **Rule 1 : At the end of the semester, students with an average of less than 40 receive a letter grade of F.**

EXPECTED STUDENT SEMESTER WORKLOAD	
Activities Carried Out in The Presence of An Instructor	**Total Hours in Semester**
Lecture (Including Discussion Sessions)	45
Recitation/Practice	
Laboratory/Studio/Kitchen/Flight	
Field Work	
Activities Carried Out by The Learner Him/Herself	**Total Hours in Semester**
Working on Assignments	
Pre-class Learning of Course Material	30
Review of Course Material for Exam Preparation	45
Other	30
Overall Total Hours in Semester	**150**

RULES FOR THE USE OF AI IN THE COURSE	
Use of AI in the Course **(Limited Use)**	Provided that you comply with the **Principles for the Responsible Use of AI** listed below, you may use AI tools (ChatGPT, Copilot, Gemini, Claude, Grok, DeepSeek, etc.) in this course only for **supportive purposes** and within the **restrictions** stated here.

	You must clearly acknowledge AI contributions, act ethically and transparently, and comply with university policies. *Examples of permitted uses: solving questions in preparing examinations.* *Examples of prohibited uses: solving questions in examinations with AI tools.*
Principles for the Responsible Use of AI	1. **Use AI as a tool to support your learning, not as the ultimate source of knowledge:** AI can assist your learning and work, but the final judgment, creativity, and ownership of the output must always remain with you. 2. **Be transparent about AI's contribution:** If you use AI to generate, summarize, or improve any part of your work, you must clearly acknowledge it. Transparency protects your academic honesty and strengthens professional integrity. 3. **Recognize the limitations and biases of AI:** AI may produce inaccurate, incomplete, or biased outputs. Always review the results critically and verify them before using. 4. **Consult diverse sources, not just AI:** Do not rely solely on AI for information. Support, compare, and cross-check AI outputs with other valid and reliable sources. 5. **Protect your data and privacy:** Never share personal, sensitive, or confidential information with AI tools. Safeguarding such information is your responsibility.

OTHER RULES AND INFORMATION	
Health	The mode of instruction is subject to change in case of pandemic or other similar unavoidable reasons in line with the directives of the authorized public bodies. In such a case, the necessary revisions will be binding for all members of the OzU community, and will be announced by the relevant units, in particular Student Services.
Safety	Announced safety procedures must be strictly followed during any laboratory and similar work. Please refer to the safety guidelines posted in the laboratories. In case of emergencies, call 9911 (216 564 9911).
Accessibility	Reasonable accommodations will be provided for students with verifiable disabilities. Please inform your instructor if you need any assistance.
Academic and Technical Support	Students can get help from the Writing Center, Solution Center and IT in case they need academic and/or technical support with their classes.
Objections to Examination Results	Students who object to their exam results and cannot resolve their objections with the instructor of the course, may file a written petition for a review of their exam papers at their Dean's/Director's Office within five business days from the announcement their exam results.
Academic Integrity and Honor Code	Students are assumed to abide by scholastic honesty and uphold the Honor Code. Scholastic dishonesty includes, but is not limited to cheating, attempting to cheat, plagiarizing, fabricating information or citations, facilitating acts of dishonesty by others, having unauthorized possession of examinations, submitting the work of another person, or tampering with the academic work of other students. Any form of scholastic dishonesty is a serious academic violation and will result in a disciplinary action and also may result in student getting a 0 grade in the related assessment.
Unauthorized Recording/Sharing of Lectures	Recording/sharing of synchronous/asynchronous lectures or copying of lecture recordings are prohibited without the permission of the instructor. Actions such as unauthorized recording, giving the recording to someone else, taking it, using it or sharing it in physical or virtual media are prohibited and/or are offenses according to the relevant legislation. In such cases, legal procedures will be initiated in addition to starting disciplinary actions against those involved.
Flexibility	Circumstances may arise during the course that prevents the instructor from fulfilling each and every component of this syllabus; therefore, the syllabus is subject to change. Students will be notified prior to any changes.
Principles for Classroom Behavior	Creating a safe space where ideas can be freely discussed in our classroom is everyone's responsibility. In accordance with the relevant disciplinary regulations, any verbal or written expression that disrupts the order of the class, involves the unauthorized distribution of materials, or is discriminatory or violent, and that violates the dignity of individuals in the classroom (students or educators) is strictly prohibited. During class, all participants are expected to respect each other's rights.
